

The challenges below can be done in any order. Record all work in HOMEWORK books. Remember presentation-keep it neat!

Each week:

Learn weekly spellings, read to a grown up at least 5 times (including Bug Club / Active Learn) and learn target times tables for rapid recall.
(Remember, if reading is recorded 5 times a week from a book or Bug Club, children will get 10 points in addition to the ones below.)

1 15 Points	2 15 Points	3 15 Points	4 15 Points	5 10 Points
Look around the house and write down all the things that use electricity to work.	Identify the possible dangers associated with electricity in the home and design a safety poster.	Write down 10 amazing facts about Romans and the Roman empire.	What did Romans like to eat? What important things did the Romans invent?	Learn 10 Spanish words which would be useful on holiday.
6 5 Points	7 10 Points	8 5 Points each time	9 5 Points	5 Points for each read
Learn how to tell the time in Spanish (o'clock will do!)	Write 5-10 interview questions you would ask to someone who is famous, for example the Prime Minister.	Write down a target times table as many times as possible in 2 minutes	Write the rules of a perfect sentence.	Read outloud to a grown up using character voices for the direct speech.
11 15 Points	12 15 Points	13 15 Points	14 10 Points	15 10 Points
Write down 10 things that we use water for. Could we survive without it?	Where do puddles on the playground disappear to? Why do windows sometimes steam up?	Why is the River Ouse so important to York?	Make an information poster about a country represented in the World Cup . And/or Make an information poster about a favourite player who will be playing in the World Cup	If you were blasting into space what would you take with you? Why?
16 10 Points	17 10 Points	18 10 Points	19 10 Points	20 5 Points
Write down the months of the year until you can do it without looking. Write down the number of days in each month.	Practise telling the time, using the clocks around home. Challenge: Can you convert the time to 24 hour clock time	WRITE down 5 places where you would find negative numbers.	Double and halve numbers up to 20. Then up to 30. Then 40. Then 50. Challenge: Can you do it up to 100?	Time yourself being quiet. Can you do it for more than 30 seconds? 60 seconds? 2 minutes? Longer?
