

Clifton Green Primary School EYFS Long Term Curriculum Plan 2017/2018

We believe there is plenty of scope here to realistically plan for children's learning each half term- the things we want them to **investigate, experience, know about and understand**. Combined with daily access to the key experiences in the continuous areas of provision and opportunities to follow their own interests and become involved in child initiated learning, whilst ensuring a broad and balanced curriculum. Half termly topic discussion sheets feed into planning and Learning challenge questions are created alongside our children.

	Seasons and the Natural World	Celebrations
